LOWDEN SCORES HEAVY VICTORY IN CONTESTS FOR CONVENTION SEATS

SUFFRAGISTS MAY PICKET NATIONAL REP. CONVENTION

Failure of Delaware to Ratify Amendment Today Would Settle Plan

COLUMBUS, O., June 2. — "Unless the Delaware legislature ratifies the suffrage amendment by this evening, a delegation of the National Woman's Party will go to the Republican national convention at Chicago to protest against further delay," declared Dr. Gillette Hayden, Ohio chairman of the National Woman's Party, commenting on the United States supreme court decision upholding the Ohio legislative resolutions ratifying the federal prohibition and woman suffrage amendments.

"The protestation will take the form of a line of women holding banners in front of the Republican convention hall. Only one state has to be won now in order to complete ratification of the suffrage amendment. Until the 36th state ratifies, the women are just as far from the ballot as they are now—they are still unenfranchised citizens.

"We are, indeed, not glad to have Ohio with the backward states."

DOVER, DEL., June 2. — Little hope for favorable action on the suffrage amendment was held out when the lower house of the legislature convened for its final session today. Suffragists had worked indefatigably for many days, but the indications were that they had failed to overcome the hostile sentiment of the legislators.

The legislature will adjourn at 3 p. m.

WASHINGTON, June 2. — President Wilson has taken a hand in the fight for ratification of the suffrage amendment by the Delaware legislature it was announced at the white house today.

The president last night sent telegrams to three Democratic assemblymen in Delaware urging that they vote for the ratification of the suffrage amendment.

It was stated that if the required number of votes can be secured ratification of the amendment by Delaware is assured, and that ratification by the states will then be completed.

HOUSE COMMITTEE IS UNANIMOUSLY AGAINST MANDATE

WASHINGTON, June 2.—A United States mandate over Armenia requested recently by President Wilson will be denied summarily today by the house should the Armenian mandate resolution, now before the senate reach the house in time for action.

Chairman Porter of the house foreign affairs committee has arranged with the house leaders to take the senate resolution up and place it on passage as soon as it comes to the house. He said today that he expected the resolution to reach the house some time during the day. The house will hold a night session to dispose of the business.

Conferences among members of the house foreign affairs committee respecting the requested mandate show that the committee is virtually unanimous in opposition to acceptance of the mandate. No formal meeting of the committee will be held to determine its action on the senate resolution. It is understood that some of the Democratic members of the committee led by Representative Flood, of Virginia, will oppose the summary action to be taken on the resolution and may ask that some pledges of help be extended to the Armenians in their effort to set up their government. The majority of the house, however, seems disposed to settle the matter of the proposed mandate speedily and finally.

Wood Lands Only Two of Nine Contested Seats For Arkansans—Night Sessions Planned By National Committee Settling Disputes

CHICAGO, Ill., June 2.—The score stood 7 to 2 in favor of Gov. Frank O. Lowden, of Illinois, when the Republican national committee resumed its hearing on contested seats for the national convention today. Seven of the Illinois governor's supporters in Arkansas have been seated by the committee, as against the two for General Wood from the District of Columbia.

The two cases represent the only contests actually decided by the committee in two days. Progress has been so slow that, beginning tonight sessions will be held nightly until all the contests are out of the way. The Lowden and Wood factions are practically the only ones involved in the contests. Senator Hiram Johnson's candidacy is involved in but two from the tenth district of Minnesota.

Members of the national committee are beginning to manifest considerable impatience with the status of the contesting factions. In almost every case the contests come from the south and are the result of local factional fighting. In most of them the racial question is predominant.

The general dissatisfaction with the contests particularly noticeable among the socalled "old guard" members, was voiced by Joseph B. Kealing, of Indiana, one of the guard's ablest lieutenants.

"Every four years, we come up here and spend hours of valuable time on these contests. We see the same old faces every year. The same factions from southern states are seen here year after year. And all this time is spent upon states which have never delivered one electoral vote to the Republican party."

The Louisiana case was practically dismissed by the committee's denial of a petition to reopen the case. Twelve delegates are involved.

The contests from Georga with 17 delegates; Florida with 8; Minnesota with 2; Missouri with 4; Mississippi with 12; North Carolina with 22; and Oklahoma with 6 were taken up by the committee today. There is a manifest desire to be "regular," and discourage rebelling factions.

LOCAL ATTORNEY'S OPINION SUSTAINED BY HIGHEST COURT

A Coshocton attorney, C. Homer Durand, had the satisfaction Wednesday of reading that the United Supreme court in a unanimous decision had sustained his contention (altho contrary to his own sentiment in the matter) that a Federal constitutional amendment cannot be submitted to a referendum vote in the states having referendum provisions in their constitutions.

More than two years ago Attorney Durand prophesied that the Ohio supreme court would decide that a constitutional amendment could be submitted to a referendum vote of the people and that the U. S. supreme court would reverse the decision, of the Ohio court.

At that time he prepared a brief covering the subject in full and this brief was first published in the National Issue, a wet paper, published at Cincinnati, and was later published in the American Issue at Westerville and the Cincinnati Enquirer. All the other wet lawyers disagreed with Durand upon the proposition.

He held to the view that Article 5 of the federal constitution vests in the state legislatures the exclusive power to ratify a constitutional amendment and that this provision meant the state assembly as originally understood before the initiative and referendum came into vogue. Durand was well known as a liberal but he had the courage to say the liberals were wrong in attempting to submit a constitutional amendment to a referendum vote of the people after the state legislature had taken action upon it. At that time the National Issue, for whose editor, Geo. S. Hawk, the brief had been prepared by Durand said that if Durand's contention was correct $150,000 had been thrown away by the wets. Durand predicted that the state supreme court would hold against the proposition as it would be political suicide for the judges to refuse to recognize the justice of the referendum petition. He predicted that the U. S. court would take a cold-blooded view of the matter free from political bias and that his prediction has come true in both instances is naturally a source of pride and satisfaction to him.

VIGOROUS MALE YOUTH OF AMERICA ANSWERS CALL OF FEMININE FRANCE FOR HUSBANDS, SAYS CARNOT

PARIS, June 2—The male youth of America is answering the feminine call of France for husbands. Dr. Carnot of the University of Paris, who recently gave an interview to the International News Service suggesting an international marriage pool to relieve the shortage of French husbands, declared in the current number of the "Paris Medical" that he has received an avalanche of letters from every state in the American union.

"These letters have come from all social classes of Americans and all want to marry French girls," said Prof. Carnot today. "I never thot that my proposal would bear such fruit, but the letters have come so rapidly and in such numbers that I believe tens of thousands of French girls may find happiness with American husbands.

"I now urge the formation of a committee of well known French women, who are conversant with American customs to co-operate with a similar committee in the United States to arrange the marriages. Many of the writers tell exactly what kind of brides they want. The bulk of the letters are from the United States, but not a few come from Canada. All apparently are sincere and a large percentage say they are willing to live in France. France must insist upon this as one of the conditions, because the country is short of males, as a result of the war, and needs babies to grow up into French citizens. The committees could easily weed out the undesirable ones on both sides.

"American and Canadian men make good husbands for French girls, even if they do come rfom a foreign country. They have moral and physical vigor and proved their courage in the war. It seems that our French girls have prestige in America overshadowing that of our blundering politicians and financiers."

With Mrs. Carrie Chapman Catt, national and international suffrage president, in command, thirty delegates, alternates and visitors to the eighth congress of the International Suffrage Alliance at Geneva, Switzerland, June 6-12, have just left New York. They were accompanied by Mrs. Joseph Daniels, who will be the official representative of the U. S. government at the deliberations. The party will return in July, thus missing both political conventions.

SUGAR FAMINE IN THE MIDST OF ABUNDANCE

"The public should know the true facts about this sugar proposition," a local grocer told a reporter Wednesday morning. "It's going to sell within the next 30 days at 35 cents per pound." One grocer told the reporter that he had five tons of sugar in store. It was reported that local confectionaries were suffering from the shortage of sugar.

According to a letter reecived by Hiram Wisenburg, of the Yellow Front, the local grocers will soon be paying $28.10 per hundred for sugar, wholesale.

The letter declared that a sugar famine was never known to occur in the spring and that the public would almost have to do without it this fall and winter.

The sugar supply for last year was 19,000,000 tons in this country, according to Wisenburg, and the sugar stock for the country this year is 56,000,000 tons.

SLAYER OF GIRL WEDS HER DYING IN A HOSPITAL

CHICAGO, June 2.—Under guard of policemen, Viola Carpenter and Robert M. Taylor were married late Tuesday night in a hospital where the girl was dying, a victim of Taylor's revolver markmanship. After the strange ceremony Taylor was returned to his cell in a police station and a few hours later his bride was dead.

The two met in Akron, Ohio, two years ago, after Viola had left her home at Cedarville, Indiana, to look for work there. They fell in love and lived together as man and wife, finally coming to Chicago. Last Thursday Viola was shot in the apartment where they were living. She told the police that she had shot herself accidentally but Taylor finally admitted that he had done the shooting, but that it was accidental. He was lodged in jail.

Knowing that she was dying, Viola last night said that it was her last wish that she and Taylor be married. The police consented, and Taylor was brot to her bedside bringing with him a marriage license he had obtained several weeks ago.

"Viola always wanted a marriage ceremony," he said. "I always intended to marry her, but kept putting it off."

A priest was sent for. Then Taylor sobbing, knealt beside the bed and took Viola's hand in his.

"Do you take this man to be your lawful husband?" began the priest.

"I do," answered Viola with great effort, and in a voice scarcely audible.

"Do you take this woman——"

"I do! I do!" sobbed Taylor.

"Then pronounce you man and wife."

The two embraced. The hardened policemen turned away to hide their tears. The priest administered the sacrament.

"Good bye, my husband!"

"Good bye, dear wife."

And Taylor was led away. Three hours later the news of Viola's death was brot to him.

BOYS' WELFARE DISCUSSED BY THE ROTARIANS

Arrangements to Be Made For Erecting Hospital For This Ohio District

Ladies' night was greatly enjoyed by the Rotarians and their guests Tuesday evening at the Park Hotel.

The meeting was devoted to Boys' Welfare work and plans were made for the helping of crippled and afflicted boys for the coming year. Meetings of this kind are being held by Rotary clubs all over the United States this month. President H. B. Hunt, after a short talk on the object of the meeting, turned it over to O. M. Dilts, chairman of the Boys' welfare committee. Short talks on methods of assisting boys were made by O. M. Dilts, Geo. M. Gray, Rev. John I. Wean, O. B. Clifton and T. L. Montgomery.

Geo. Mitchell gave an interesting talk concerning the meeting of Rotary club representatives at Elyria, Ohio. Mr. Mitchell was delegate from Coshocton to the meeting, which was held at the Elyria hospital for crippled children. He said plans were made whereby Rotary clubs of Ohio would help support this institution. The Coshocton club went on record endorsing the movement and will lend assistance financially and every other way possible. Mr. Mitchell also told of the proposition under way in which Ohio is to be divided into districts and each district of Rotary clubs is to make arrangements for erecting a hospital or having a ward in a hospital for the care of afflicted children. Coshocton will be in the same district as Canton, Youngstown, Massillon, Dover and New Philadelphia.

Supt. O. B. Clifton introduced two school boys who are just entering the high school. Edgar Haller gave two vocal solos and Karl Wendt gave an interesting talk concerning the things he thot the boys of Coshocton needed and would appreciate, dwelling in particular upon a swimming pool and the making of the Boy Scouts a better organization for the boys of Coshocton.

The Sixth Street theatre orchestra, composed of Harold Stevenson, James Hagan, Ben Hardy and Henry Shepler furnished excellent music.

POSTAL EMPLOYES FIGHT BURLESON 300,000 STRONG

WASHINGTON, June 2.—"Take the postoffice away from Burleson and restore it to public ownership," is the campaign slogan of 200,000 organized postal employes, Thomas H. Flaherty, secretary of the National Federation of Post Office Clerks announced today. Demand that the Democratic party's nominee for president pledge himself not to reappoint Postmaster General Burleson will be presented to the convention in San Francisco by a committee representing the railway mail clerks, the national association of letter carriers, and the national federation of post office clerks, the three union organizations of postal employes.

The three unions, which are affiliated with the American Federation of Labor, have a combined membership of 200,000 and claim their campaign plans are supported by 100,000 other postal employes.

A committee has been named to go to Chicago to submit a platform to the Republican convention and later to present it to the Democrats.

The platform demands a court of appeals in the postal service in which the employes will have representation to appeal to in matters involving important rights of the employes; enforcement of the eight hour day and the establishment of a half holiday during the week, with pay for overtime work; higher wage standards for all postal employes with proper provision for a quick readjustment to meet changing money value; an adequate retirement law; reduction in night work and improved working environments in all the po.. offices in the country.

SUPREME COURT MAY NOT PASS ON WET CASES UNTIL WINTER

Political Aspect of the Subject Augurs For An Extended Delay

JUSTICES HOLD ALOOF

Decision On Liquor Cases Would Have Influence On Nominations

WASHINGTON, June 2.—The United States supreme court may not hand a decision in the liquor cases until next December because of the political issues involved.

Close students of the ways of the court and of the strict adherence of its members to precedents are making this prediction freely today in view of the delay of the court in rendering its decision on the constitutionality of the prohibition amendment and on the validity of the Volstead enforcement act.

The liquor question, it was pointed out, is an issue in the political campaigns now being waged and will continue to be an issue in the greater campaign coming after the presidential and congressional nominations.

There always has been a studied determination on the part of supreme justices to hold the court aloof from political strife and to prevent its decisions being made the foot ball of partisian politics. It has no intention now, it was said, to set itself up as a president maker.

Politicians have predicted that the decision of court in the liquor cases will have direct bearing on the selection of candidates for the presidential nominations and on the framing of the platforms of the leading political parties. Either the "wet" or the "dry" forces will be stimulated to greater effort by the final action of the court both in the nominating conventions and in the general elections to follow.

Present indications are that political leaders believing it the better part of wisdom to ignore the liquor issue, are planning to be silent in their platforms on the subject and leave their candidates free from party pledges. The United States supreme court may decide it wise to pursue a similar course and withhold its decision until after the political fight is over.

PALMER ACCUSED OF MISUSING HIS OFFICIAL POWER

WASHINGTON, June 2. — A Mitchell Palmer was charged today with "astounding misuse" of the department of justice and other "machinery" of the administration in boosting his presidential boom in the recent Pennsylvania Democratic primary fight by Judge Eugene C. Bonniwell of the Philadelphia municipal court, leader of the anti-Palmer forces in Pennsylvania before the senate committee investigating pre-convention campaign expenditures.

Bonniwell said he had protested to William G. McAdoo as long ago as January 2 last of "Palmer's abuse of power" as a member of President Wilson's cabinet to "promote his personal political ambitions."

How Fast We Die

A Race of People Who Fight the Hand of Time

The population of the world is about 1,663,500,000.

The average age of death is about 33 years

About 57,374,753 die annually.
Nearly 908,520 die weekly.
About 7,310 die hourly
Almost 90 die every minute
About three die every two seconds
Sixty persons have died while you have been reading the above

Death at 33 (before our prime) seems very short From 20 to 35 is regarded as the sweet summer of life Adventures, loves and romances are usually linked with those years, after which comes the problem of how to fight off early old age, premature senility and the distressing, despondent ills that usually come to us in the winter of our lives. In the famous Balkans, or that part of Europe known as the Near Orient, live a hardy, rugged people. Though brave and fearless, they are a pastoral people Their fellowship with nature has given them priceless secrets in botany, plant life and agriculture. Two-thirds of the rarest and most precious perfumes (attar of roses) comes from Bulgaria. The Bulgarians gave the idea of fermented milk to the world, and it is generally known that in Bulgaria, in a population of 1,000,000 people, 1,600 live to be 100 years or over, while here in the United States it is regarded as a rare news item when any one reaches the century mark. Their one great family remedy upon which they rely and which for centuries has been handed down from one generation to another is the famous preparation called Bulgarian Blood Tea, composed of roots, barks, leaves, seeds, berries, herbs and flowers. A teaspoonful of these herbs brewed in a cupful of hot water and taken at bedtime eliminates the fatal toxic poisons which are responsible for early old age and most of the ills we suffer. Bulgarian Blood Tea is today used the world over and praised by millions of sufferers fighting disease and warding off old age weaknesses They include happy girls budding into womanhood or women crossing precarious thresholds of life. What's become of the prejudice against automobiles because they frightened the horses

NOW cars are everywhere. The horses have gotten used to them—and so has everybody else. Think of it! This year the American people will spend *nearly a billion dollars* on tires alone.

Tires are one of the *biggest items* on the car owner's bills.

II

Hardly a Saturday, when you motorists drop in to "tune up" for a Sunday trip, that one or more of you doesn't tell us something of value to our business. Sooner or later it comes back to you in *Service.*

Service is what the car owners of this community are looking for nowadays.

And especially the *small car* owners, who put service *first* in figuring their motoring expenditures.

III

Just because a man has a moderate-price car is no reason why he should get any *less service* out of his tires.

We believe that the man with the small car is entitled to *just as good* tire service as the man with the big car—and both are entitled to the *best tire service* they can get.

That's why we represent U. S. Tires in this community.

And why more car owners—*large* and *small*—are coming to us every day for U. S. Tires.

IV

Come in and talk to us about tires. We're here to help you get the kind of tires you want.

Select your tires according to the roads they have to travel:

In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.

For ordinary country roads—The U. S. Chain or Usco.

For front wheels—The U. S. Plain.

For best results—*everywhere*—U. S. Royal Cords.

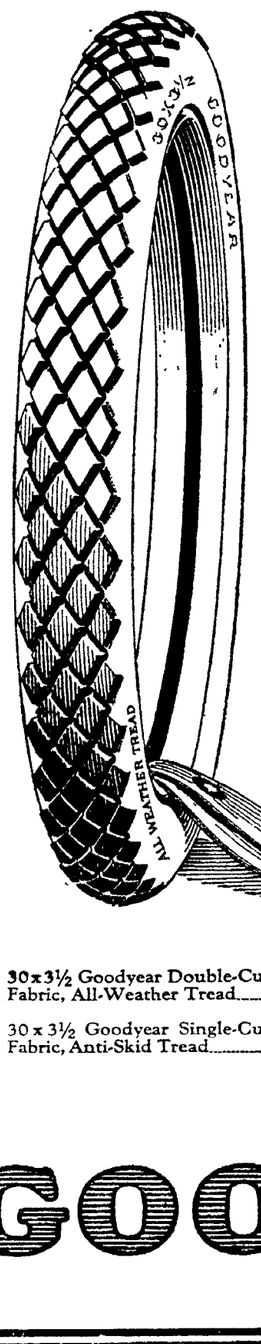
Why a Majority of the Smaller Cars Come on Goodyear Tires



Last year more cars using 30x3-, 30x3½-, or 31x4-inch tires were factory-equipped with Goodyear Tires than with any other kind.

This is plainly a result of the high relative value produced in these tires for the smaller cars by Goodyear's enormous resources and scrupulous care.

They represent the same intense endeavor to supply utmost satisfaction in tires that has laid the basis for the marked preference which exists everywhere for Goodyear Tires in the larger sizes.

This real Goodyear value in tires is available for your Ford, Chevrolet, Dort, Maxwell, or other car using one of these sizes, at our nearest Service Station. Go there for these tires and Goodyear Heavy Tourist Tubes

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread..... $23.50

30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread..... $21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size *in water-proof bag*..... $4.50

GOODYEAR

ALL READY FOR THE CURTAIN TO GO UP ON BIG MINSTREL

When the curtain goes up at the Sixth Street Theatre tomorrow evening everyone in the "Hoop La" Minstrel cast will be ready to deliver his best. For the past 16 days the young men and women have been trained carefully and intensively and a big performance is expected.

Aboard the good ship "Hoop La" you will see eight sailors and eight sailor girls with David Stitts, Captain of the ship, seated around the deck singing good old songs, when the trumpet is sounded and a hornpipe dance is put over in snappy style. Then six cannibals direct from Borneo Isle will be kake-walked in to the snappy number "Oh Mother I'm Wild." The King and Queen of Borneo Isle E H. Lynde and Miss Mary Meek come bouncing in with their chorus of Wild Women and then the end men Sam Cardwell and David Markley and Fred Compton and Kenneth Slaughter. All are assembled on the deck of the big cruiser and an entertainment of one hour and a half of good music, comic songs and funny jokes and dances is put out

After a short intermission there will be the olio consisting of some very clever vaudeville acts Robert Vogel will open in "Songs de Concert" with Francis Weaver at the piano Fred Compton will next explain the "Correct Way to Catch an Oyster," supported by Paul E Landwer the director of the production. "In Melody Lane" is the next act where Harold Brink will lead twelve of Coshocton's prettiest girls in songs and dances recently taken from "Listen Lester," a successful musical comedy now playing on Broadway, New York "I'd Love To," a familiar hit is the song featured. The Hoop La Versatile Ladies' Trio consisting of the Dawson sisters and Genevieve Kerlin will follow with songs of harmony. The young ladies' voices blend well and their act will no doubt be a big feature The "Death of Saloon" will be the next and it is a rare comedy in which Joseph Shepler will impersonate the vamping dancer "Saloon." Joe is a hit and will drive the blues away with his antics. Mary Meek as Zuleka the royal Egyptian dancer will offer an artistic dance. Mont Bodenheimer will be King Herring and Mr Gross will be the head slave who does some real comedy. This is a rare treat and is bound to bring much laughter The last on the bill in part three will be "The Barnham and Bailedhay Sideshow," featuring Red Bucher supported by the director and Thomas Carton as the mind reader. Ten freaks will be introduced in comedy style and the mind reading act is a big laugh promotor.

This morning at ten o'clock the street in front of the Sixth Street theatre was lined up two deep with people making exchanges for their reserved seats for both Thursday and Friday evening

Tonight will be the final rehearsal for the entire cast and then Thursday and Friday evenings the big show.

One Candidate Of Spontaneous Support

THE instructed delegates claimed for Gen Wood in the Republican convention, after an expenditure of between $1 000,000 and $2,000,000 and a furious effort that has taken the time of thousands for months, number less than 150

But another man who himself has not lifted a finger for the nomination, for whom so far as is known not a dollar has been spent and in whose behalf the only effort made has been a spontaneous, unorganized effort, will go into the Democratic convention with the support of delegates that at least will equal and may exceed that number.

The man who occupies this singular position in a year of confusion, self seeking booms and huge expenditure is Vice President Thomas R Marshall New York's 90 delegates as well as Indiana's 30 delegates will vote for him unanimously on the early ballots at San Francisco Scattered delegates from a surprising number of other states confess that in the lack of other appealing candidacies and the pulling and hauling among the friends of Palmer and Edwards and McAdoo and Cox, they would find a restful and satisfying relief in a decision to support Mr. Marshall

It is admitted that the only Vice President to serve two terms since Calhoun has made a remarkably favorable impression on those with whom he has come in contact at Washington The only reason this favorable estimate is not more widespread among the people is said to be his avoidance of publicity In such glimpses as the voters have caught of him in the discharge of the duties of a difficult position he has appeared an adequate, worthy figure and his utterances have revealed a stalwart adherence to the old fundamental Democratic principles and a statesmanlike grasp of current problems

Mr Marshall was urged for the chief place on the ticket in 1912 In certain contigencies including results of the Republican convention at Chicago, he may be a strong possibility at San Francisco.

Let Freedom Reign

THE release of Kate Richards O Hare from the Missouri Penitentiary by order of the President, on the recommendation of Attorney General Palmer, is an act of justice Altho the court procedure under the espionage act was regular, the evidence upon which she was convicted was clouded and subsequently was discredited She vigorously disclaimed any disloyal intent.

The vindication of Mrs O Hare should be completed by the restoration of her citizenship rights and should be followed by the release of all those imprisoned under war legislation who are not guilty of acts criminal in themselves

The espionage act was designed solely as a war measure to prevent obstruction to war plans and war efficiency It was based solely upon the apparent necessity of averting possible menace to the safety of the nation in war and the success of war effort. The emergency has passed, the danger has vanished practical peace exists and there is no longer any reason why anyone should be in prison for the expression of opinion or any utterance that might be regarded as wrong in war but harmless in peace. The offense for which most of those imprisoned under the espionage act were punished would not be regarded as offenses now The laws are valid only during war conditions

The danger lies now, not in liberty, but in restrictions on constitutional liberty The President owes not only a gesture of reverence for American liberty, but a full recognition of all constitutional rights. The first step is amnesty for the pacifists, for whose objects, altho not their methods, all men of good will are united

Chase Out the Germs of Rheumatism

Untold Suffering Caused by Tiny Pain Demons.

Just because the pangs of your rheumatism seem to diminish as warm weather approaches, do not make the serious mistake of feeling that you are about to conquer this disabling disease.

Under no circumstances should you let up in your efforts to combat this affliction, but you would be wise, rather, to redouble them, and take advantage of the favorable season to route the disease germs from the system.

The best time to successfully combat the germs of Rheumatism is during the mild season while they are less active, and will respond more readily to the right method of treatment.

And this is why you should not lose the opportunity of a thorough, vigorous course of treatment during the summer months. Many victims of Rheumatism indulge in the delusion that they are at last free from the clutches of the disease simply because they feel little or no discomfort during the mild season.

But with the first approach of cool, damp weather next fall, you will find that the little pain demons will gradually become aroused from their summer slumbers, ready to renew their attack with increased fury. The best time to rid the system of the germs of rheumatism is while they are dormant and inactive, because they are les sable to resist the counteracting influence of the proper treatment.

What, then, is the logical sane and intelligent treatment for this most painful and torturing disease?

Rheumatism is a sturdy foe, and it never uses gentle methods with its victims If the disease were confined to the surface there might be some logic in expecting relief from its clutches by rubbing with liniments and lotions But a disease that can cause so much pain and suffering is deep-seated, and has its source far below the surface of the skin.

The only sensible treatment from which you can expect results is a remedy that goes deep down into the blood supply, and kills the germs that cause the disease.

S S S is a wonderful blood remedy, and is the logical treatment for Rheumatism, because it promptly permeates the entire blood supply, and searches out and kills the disease germs. You can take S S S with the assurance that you are not experimenting, for this fine old remedy has been in constant use for more than fifty years, during which time it has been giving splendid results So you owe it to yourself to take S. S S without delay, and discard the use of local treatments that can do you no good.

By eliminating from the system the tiny germs that cause Rheumatism, you will be delighted to find that you have at last freed yourself from the shackles of the disease.

New York Day-By-Day

By O. O. McINTYRE

NEW YORK, June 2—Chit is a Central Office detective who honors me with his friendship and at times small confidences. Chit is no silk gloved criminal hunter. He is the typical headquarters "dick" of fiction, wearing a seal brown derby at a jaunty angle, square toed shoes and a lodge button in each lapel. He is given to speech out of the corner of his mouth when angry

He roams the East Side scavenging for the human fungi of the cellars, the mouldy tenements, the cheap pool rooms and barber shops He knows Mulberry street with its honeycombs of fire-escapes as well as Mott Street where shuffling figures are given a back ground of white drugged faces peeping from unwashed windowa

His world is a strange world of pelny nosed men, burned to the butt end of sordid lives, blurry figures who appear only after nightfall, young girls pursuing the oldest profession in knee high skirts, older women who bedeck themselves with rhine-stone jewelry hoping faintly for new conquests It is a world acid eaten with evil.

It is a high adventure to stroll thru the East Side with Chit He is conscious of his power Everybody seems to know him and he appears to notice no one but he has eyes that record as faithfully as the camera I walked with him the other evening just after dusk The gas flares in the cheaper stores were burning

The little curb stone groups had gathered and on the stoops sat the dark eyed tenement mothers perennially big with child From every window protruded several heads jabbering a medley of a dozen tongues across the narrow streets Old men with whisk ers were smoking their final pipe The push cart venders were shouting above the din of everything And half naked babies crawled about in the dirt

And then we came to a corner where a good sized crowd was laughing at an old hag aflame with rot gut whiskey It was just good natured haranguing 'Old Sophy they called her 'She never drank until two years ago' confided Chit Then came the particulars She was a scrubwoman in one of the ornate hotels frequented by a fast set

One night while her rheumatic fingers were wielding a brush crowds of late midnight diners were leaving the cafe All were flushed with wine One beautiful young girl a public dancer passed the squat figure on the floor Both looked at each other at the same moment The girl turned quickly away drawing her velvet coat high The next day 'Old Sophy' took to drink The young girl was her daughter

The wholesale and retail harness business district is confined to Chambers and Warren streets In the days gone by it used to be a flourishing industry When at the Cornelius Vanderbilt Jr wedding the other day the wedding couple drove up to the church in a carriage drawn by a spirited team, the only horse drawn vehicle in the long line of magnificent conveyances, the news was gratefully received in the harness district Despite the growing use of the auto and motor truck there is still a big business for the harness makers Last year was the best year in 10 years Horseback riding is becoming more popular than ever. It is more fashionable now to have a riding horse than an automobile Some believe the horse is coming into fashion again It takes horses to denote class and that means much in Manhattan.

The curbstone diamond brokers who led a furtive sort of existence on the fringe of Longacre Square have walked into evil days A bear market and tight money have caused their undoing They were merely touts for pawn shops and got any commission a purchaser would give

The "strained credit" that so occupies the banker is the least of our troubles. Our grocer demands cash

What's become of 'the old songs?' a contemporary asks Those popular 2 a m ditties have gone to Cuba

Vice President Marshall's "equal and exact justice for all' makes it necessary for his platform to contain an 'adequate jailing facilities' plank.

WALT MASON

AT NIGHT

When I lay me down to rest, at ten minutes after nine, having all day done my best, tranquil is this heart of mine I have gained an honest plunk, earned it in the sweat that pours; so I lie upon my bunk, springing ground and lofty snores I have done no evil trick, I have done no neighbor ill, I have fleeced no trusting nick, I have jumped no merchant's bill If I've injured any gent, if I've caused the least distress, twas not done with fell intent—'twas pure awkwardness, I guess So I seek my humble cot, and in dreams my spirit soars, and the neighbors hear, I wot, all my plain and fancy snores Oh the long and dragging nights that the crooked people know! Then it is that Conscience smites with a solar plexus blow In the day the sinful ghys may proceed with haughty tread, in the night the ghosts arise, and stand grinning round the bed If you'd know a sleep profound, if you'd know what sweet dreams mean, if you'd have no ghosts around, you must have a mind serene. There is sorrow in the night, there are phantoms breathing woe, if your conscience isn t white as the well known driven snow

Profits Helped Build Our Business

Do you think it's right to save money?

Swift & Company's business has been built up partly by selling capital stock for cash and partly by thrifty saving, putting some of our earnings each year back into the business to increase facilities for production.

That is what most all of us seek to do—save part of our earnings for future usefulness.

It is the way American industries have been built up. It means the least drain on the financial resources of the country.

For the past twenty-four years Swift & Company has made an average profit from all sources of 11.3 per cent on investment (capital and surplus), and 2.3 cents on each dollar of sales—a fraction of a cent per pound. Out of this we have paid dividends and saved something to help us keep pace with a growing country.

MOCK FISHERMAID COSTUME FOR THE SUMMER MASQUE

The ball masque is not a winter festivity only. In fact it thrives in the summer time when moonlit verandas and vine covered pergolas form romantic and fitting background for the masked dancers. Here is a unique costume for the summer masquerade. It is a mock fishermaid outfit. The blouse is of hand-woven fish net with clover touches of red trimming and the bloomers are of sheer silk with red flowers. A red silk scarf forms a finishing touch.

S. LAWN AVENUE RESIDENT PRAISES REDEX VERY HIGHLY
Much Pleased With the Way It Helped Him Says Mr. J. Biederman

The stomach is primarily responsible for most cases of poor health

The average man or woman can not be sick if the stomach is working properly. To be sure, there are diseases of a virulent nature which are organic and are not traceable to the stomach, but even fevers can, in most cases, be traced to something taken into the stomach All of this half-sick, nervous exhaustion that is now so common, is caused by stomachic conditions and it is because Redex will and does regulate the stomach that it is meeting with such great success, not only in Coshocton but elsewhere thruout the country.

To sum the matter up, a sound digestive apparatus that is doing its full duty, getting every particle of nourishment out of all food by transferring it to the bowels in a perfectly digested state—this above all brings health

Among a number of statements from local people endorsing Redex is one from Mr. J. Biederman, an old time resident of this city residing at 919 S Lawn Ave., in relating his experience with Redex, the New Herbal remedy, recently introduced thru Page & Lorenz' drug store, who says:

"I recently had a severe fall and broke several small bones in my foot which caused me a great deal of suffering. My general health was very poor as I was very weak and nervous. Had scarcely any appetite and was all run down. I am getting along in years and the infirmities of age fell on me. I recently started taking Redex with very gratifying results. It gave me a good appetite and helped my nervous condition. I am gaining in strength every day and feel a whole lot better than I have for a long time Redex is certainly a splendid medicine and I am very glad indeed to recommend it."

Redex can be obtained in Coshocton at Page & Lorenz' drug store.

LUCKY DECISION FOR HIM, HE SAYS
Was Badly Run Down and Losing Weight Rapidly When He Determined to Try Taniac.

"In the past four weeks I have not only been restored to complete health but I have also gained twelve pounds in weight," said John F. Lawrence, a prosperous farmer living on R. F. D. 8, Toledo, Ohio.

"During the past two years I have been in such a weak, run down condition that I felt good for-nothing all the time. My appetite was poor, nothing tasted good to me and I couldn't digest what I did eat After eating I always suffered from nausea and I felt bilious most of the time I was nervous and restless, could never sleep well and was so weak that I became exhausted if I tried to get around and do a little work. Nothing I took did me a particle of good and I worried over my condition so I was beginning to lose weight rapidly

"Finally, I decided to try Taniac as so many people right here in Toledo had been taking it with fine results. Well, that was a lucky decision on my part for right away I began to feel better, work better and to pick up in weight and strength. So far, I have taken three bottles and, as I said I have gained twelve pounds and am stronger than I have been in many years. I eat like a hungry wolf and never suffer from indigestion at all. My nerves are as strong as steel and I sleep sound all night long just like I used to years ago. I feel brimful of life and energy and I gladly tell others that Taniac did it all."

Taniac is sold in Coshocton by Siegrist & Williams and in Warsaw by J. D. Lawson.

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated; if your head is aching; if what you eat sours and forms acid in stomach, or you are bilious, constipated, nervous, sallow and can't get feeling just right, begin inside bathing. Drink before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gases and sour bile before eating more food.

To feel like young folks feel; like you felt before your blood and muscles became loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate, which is inexpensive and almost tasteless.

Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast.

FARMER THOUGHT BACK WOULD BREAK

Felt like he was being bent backward over a barrel. Liver was lazy and often became dizzy. Whole system was run down. Found relief in Dreco, the great root and herb medicine.

"It is wonderful the relief I got from taking Dreco, for I felt like my back would break when I started on my first bottle," stated Mr. George Snyder, of 1105 First St., Findlay, O. Mr. Snyder is the well-known truck farmer who has lived in this city thirty years.

"I ached all over, my liver was sluggish and whole system in a run-down, weakened condition. I think I was on the verge of a breakdown. As soon as I started taking Dreco I felt better. My bowels acted freely and my kidneys were flushed off. I began to feel sound and my appetite increased. My entire system now seems to be cleaned out, and my body is free from pain. I feel good all the time and give all the credit to Dreco. It sure is one fine medicine."

Dreco is the pure liquid extract of many roots, herbs, barks and leaves, which act on the vital organs of the human body. After taking Dreco it is noticed that the stomach is soothed and the gassy condition is eliminated; the liver becomes active, relieving headaches, that dull, tired-out feeling; nerves are quieted, which induces sound sleep; the kidneys are strengthened; appetite increased; bowels act with ease and regularity, and the whole system takes on renewed energy, vigor and vitality. Dreco is harmless, pleasant to take and the effects are quickly felt.

Dreco is now sold by all progressive druggists and is being especially introduced here by

BEAUTIFUL PAGEANT ARRANGED IN ANNUAL MAY CROWNING BY LITTLE ONES AT SACRED HEART

One of the prettiest pageants ever witnessed in the city was that given Sunday evening at Sacred Heart church revolving around the conception of the May crowning The drill was participated in by all the children of the church and reflected great credit on the sisters who were solely responsible for the entire exercise

At least two hundred boys and girls participated and the difficult evolutions were discharged with all the precision and snap of a well trained company of soldiers. As was earlier announced little aKtherine McGrady placed the wreath on the brow of the figure of the Virgin Mary assisted by Richard Curtis, Robert Weaver and John Rader as ribbon bearers and Thomas Elder and Joseph Abood as guards

The children's procession was preceded by several appropriate musical numbers which were splendidly rendered.

The Rev. Father Slattery talked briefly in regard to the annual fete which was about to be observed. He explained its significance and the lessons which it was designed to impress on the children who would participate. A portion of his remarks were also appropriately devoted to Memorial Day and the sacrifices recently made by the young men of America in the world war.

He declared that their service in the cause of democracy would have been rendered in vain unless our statesmen, our political parties and the people generally here in America were willing to show the same patriotism and devotion to ideals in time of peace they showed under the stress of war

The church was crowded, a large portion of the membership remaining outside that their friends from other denominations might witness the children's pageant
